PROFESSIONAL SUMMARY

C# / .NET software engineer experienced in building REST APIs, backend services, and business applications. Skilled in ASP.NET Core, Entity Framework Core, SQL Server, Redis, Docker, and web/mobile integration. Holds a master's degree in computer science and is currently pursuing an M2 programme in Software Architecture and Development at INGETIS. Focused on building reliable, maintainable .NET solutions within collaborative engineering teams.

EDUCATION

INGETIS — Paris, France Sep 2026 – Present
M2 / Master's-level programme, Software Architecture and Development Expert (in progress). Software architecture, microservices, cloud, Kubernetes, DevSecOps.

University of Ghardaïa — Algeria Jun 2025
Master's Degree in Intelligent Systems for Knowledge Extraction. Thesis: AI-based optimization of cellular network coverage and capacity.

University of Ghardaïa — Algeria Jun 2023
Bachelor's Degree in Information Systems.

PROFESSIONAL EXPERIENCE

Software Engineer — Backend & Cloud | Future Gates UK Jan 2026 – Present
Remote | C#, ASP.NET Core, REST APIs, Docker, Redis

- Develop and maintain .NET REST APIs and backend services, translating functional requirements into testable endpoints and business rules.
- Integrate APIs with a React Native mobile application; collaborate with the mobile team on API contracts, testing, and deployments.
- Designed a follow-notification deduplication mechanism using SignalR, FCM fallback, and Redis caching with a 72-hour window.

Freelance Full-Stack Developer — Retail Management System Jan – Apr 2025
Client project, Algeria | .NET, DevExpress, EF Core, SQL Server

- Built a point-of-sale and retail management application covering purchases, sales, cash registers, inventory, and reporting.
- Designed the data model and implemented SQL Server persistence using Entity Framework Core and SQL queries.

Freelance Full-Stack Developer — E-Commerce Jul – Sep 2024
Client project, Algeria | ASP.NET Web API, Angular, Redis, Stripe

- Built an e-commerce API with JWT authentication, EF Core data access, Redis caching, and Stripe payment integration.
- Developed a responsive Angular frontend connected to backend services.

.NET Software Development Intern | SAETI Feb 2023
Algiers, Algeria

- Contributed to internal tools for tracking interdepartmental requests; developed data-entry interfaces and gained exposure to Active Directory.

PERSONAL PROJECTS

AQSAT — Installment Payment Management SaaS Personal project — Design phase
C#, ASP.NET Core, Entity Framework Core, REST APIs

- Designing a SaaS solution for installment-based sales, including customers, contracts, payment schedules, transactions, and outstanding balances.
- Defining planned business rules for installment calculations, payment statuses, and access control.

SchoolSAAS — Multi-Tenant School Management Platform Personal project
C#, ASP.NET Core, React, React Native, Redis, PostgreSQL

- Designed a web/mobile platform for multiple schools to manage students, groups, sessions, and attendance.
- Developed APIs with institution-level data isolation, roles, permissions, and audit mechanisms.
- Used Redis caching and cursor-based pagination to optimize data retrieval.

TECHNICAL SKILLS

Backend: C#, .NET, ASP.NET Core, REST APIs, Entity Framework Core, LINQ, MediatR, Python, FastAPI.
Architecture & Security: Clean Architecture, DDD, CQRS, SOLID, JWT, RBAC, dependency injection, testing.
Databases: SQL Server, T-SQL, PostgreSQL, MySQL, MongoDB, Redis, transactions, indexing.
Frontend: Angular, React, React Native, JavaScript, HTML/CSS, DevExpress, WinForms.
DevOps & Tools: Docker, CI/CD, Git, GitHub, Linux, Visual Studio, Postman, logging.

ADDITIONAL TRAINING & LANGUAGES

Training: Clustering & Unsupervised Learning in Python; Python for Deep Learning; RAG Strategy & Execution; Ubuntu Network Server.
Languages: French (B2) | English (Advanced) | Arabic (Native).
